## Introduction

# Foreword

**The Sustainable Apparel Forum (SAF) was established to provide a platform in Bangladesh that promotes the sustainability agenda within the textile and apparel supply chain.**

The SAF aims to enable Bangladesh to progress as a responsible sourcing destination on the global map by accelerating the momentum of sustainability within the industry through education, awareness and a reduction of the knowledge gap.

The SAF offers a knowledge gateway and networking platform, specifically for the apparel & textile industries, allowing discussion around the issues related to sustainability. The Forum presents knowledge sessions and speakers of international repute in an environment that allows fresh perspectives on sustainability to be discussed.

The first edition of the SAF event was held on 17th May 2017. The event served as a platform for entrepreneurs to meet with sustainable technology development partners, material innovation companies and other stakeholders, and for green solution providers to meet and understand the requirements of manufacturers.

The event also proved to benefit a large number of policy makers from national and international organizations, helping them to define the nature of best sustainable and green manufacturing practices.

With the ever growing climate crisis and urgency to ensure sustainability within the apparel industry, we have organized the second edition of the Sustainable Apparel Forum, to be held on 10th MAY 2022. It is our desire and expectation that this initiative will benefit both Bangladesh and the global apparel industry and help galvanize the continued adoption of more sustainable business practices.

## Introduction

# Foreword

The objective of the Forum is to facilitate a meaningful exchange of knowledge to demystify issues surrounding sustainability for the benefit of factories and individuals.

Sustainable Apparel Forum (SAF) is a pioneer sustainability event of the country organized by Bangladesh Apparel Exchange (BAE). The journey of the SAF started in 2017. With the ever-growing climate crisis and urgency to ensure sustainability within the apparel industry especially after the Covid-19, the 3rd edition of Sustainable Apparel Forum (SAF) is being organized by the BAE this time in Dhaka.

At the 3rd Edition of the SAF, globally renowned experts will be sharing their fresh perspectives on sustainability through series of Sessions & Presentations. Alongside the Sessions, an exhibition of sustainable technologies, products and solutions is also being organized under the same roof to accelerate the momentum of sustainability in the apparel and textile industry of Bangladesh.

The SAF eventually aims to position Bangladesh as a value-added product sourcing destination for sustainable and ethical apparel products in the global map. I believe together we can bring the expected changes and build a sustainable & responsible fashion industry.

With thanks and best wishes,

Mostafiz Uddin

## Getting to the Venue

# Getting to ICCB from Airport

10-minutes drive from airport

### By Airport Taxi Service

At Dhaka Airport, taxi booths are located outside Arrivals in Terminal 1&2. They run between the airport and other destinations and they are more practical to arrange your trip. If you are staying in a hotel, ask kindly to arrange an hotel taxi, since it is the safest way to transfer by taxi to the airport.

### Ride Sharing Applications

Uber & Pathao are reliable in Dhaka anytime. After completing all the formalities in the Airport, buy a sim card (Airtel or Robi or Grameenphone) from inside shop or use airport wifi to call an Uber/Pathao which will charge you \$4-\$6 to reach the event venue and \$4-\$6 to reach ASCOTT Hotels.

Moving Bangladesh

### By CNG or Bus

Traveling by bus or CNG is not recommended for those participants who can not stand or sit in small spaces, since buses use to be really crowded. But some hotels provide shuttle bus service from the arrivals level. Passengers may ask to their hotel if the shuttle service is available.
